Did you know?

Research indicates that kids who are physically active on a regular basis tend to be more focused & have better test scores.

Research also shows that there are social benefits for kids who have a minimal level of athletic skill.

We offer over 70 different activities and each week we bring equipment for all children.

Stretching, warm-ups, the sport activity of the week and cool downs are included in our program each week.

By introducing children to sports and fitness at a young age it is our hope that they will stay physically active throughout their life.
